Allowable Subject Matter

1. Claims 1-20 are allowed.

Independent claims 1, 9, and 18 are directed towards a method, apparatus, and recording medium for repositioning images in a video data stream and all recite "...modifying said video data by generating one or more stuffing bits configured to restore said encoded first image data to said bit positions, in response to determining said repositioning would result in said change of bits positions', coding said stuffing bits such that upon decode said stuffing bits will not materially affect said displayed image; and storing said modified video data in a second buffer..." which are features that are not anticipated nor obvious over the art of record. Dependent claims 2-8, 10-17, and 19-20 are allowed for the reasons concerning the independent claims.

Conclusion
